2. The Government of India in the Letter second read above, has stated that the funding pattern between the Central and State Government for Centrally Sponsored Schemes (CSS) has been in the proportion of 90:10 for North-Eastern and Himalayan States and 60:40 for other States. But many States are not making proportionate matching state share considering the cost on training and administrative component as 100% funding from Government of India which is not true and stated that during 2017-2018, the matching state share has been indicated as Rs.180.50 crore against the central share of Rs.285.00 crore. Therefore, the required proportionate matching state share against the central share should be Rs.190.00 crore and requested to make proportionate revision of matching state share against the allocation / release of central share

to the State for smooth functioning of the programme.
