ORDER:-

The Dean in his letter first read above, has submitted a proposal for starting of two year Post Doctoral Fellowship Course in Diabetology at Stanley Medical College, Chennai wherein the Associate Professor, Institute of Diabetology, Stanley Medical College and Hospital, Chennai has stated that India, the second most populous country in the world, has been severely affected by the global diabetes epidemic. Diabetes is being a major part of Non-Communicable life style disorder. Diabetes is growing alarmingly in India, home to more than 65.1 million people with the disease, compared to 50.8 million in 2010. An estimate shows that nearly 1 million Indians die due to Diabetes every year. The average age on onset is 42.5 years. The high incidence is attributed to a combination of genetic susceptibility plus adoption of a high-calorie, low-activity lifestyle by India's growing middle class. Additionally, a study by the American Diabetes Association reports that India will see the greatest increase in people diagnosed with diabetes by 2030. In particular with Tamil Nadu, prevalence of diabetes is almost 13% in urban population and 8% in rural population. The prevalence of pre-diabetes is almost 16 - 18%, which is more alarming since these pre-diabetes people are getting converted to diabetes by years to come. For starting the Post Doctoral Fellowship course he has also furnished the Patient Census from the year 2012 to 2019. The Dean, Stanley Medical College, Chennai has certified that adequate infrastructure facilities, faculties, equipment and library facilities, Clinical facilities and materials etc., are available to start and conduct the two years Post Doctoral Fellowship Course in Diabetology and also certified that there is no need for extra infrastructure facilities, Equipments, books, clinical facilities and there will be no additional expenditure to the Government for starting and conducting the Post Doctoral Fellowship course.

2. The Director of Medical Education in his letter second read above has recommended and requested the Government to permit the Dean, Stanley Medical College, Chennai to start two year Post Doctoral Fellowship Course in Diabetology at Government Stanley Medical College, Chennai.

3. The Government after careful examination, have accepted the recommendation of the Director of Medical Education and permit the Dean, Stanley Medical College, Chennai to start two year Post Doctoral Fellowship Course in Diabetology at Stanley Medical College, Chennai with an annual intake 6 seats subject to the usual conditions prescribed for starting of such Post Doctoral Fellowship courses.

4. The Dean, Stanley Medical College, Chennai and the Director of Medical Education are directed to take necessary action, accordingly.
