

## ABSTRACT

Water Resources Department– Dynamic Ground Water Resources Assessment for Tamil Nadu as on March, 2022 – Categorization of Firkas as Over Exploited, Critical, Semi-Critical, Safe and Saline/ Poor Quality based on the Assessment in Tamil Nadu – Approved – Orders issued.

### Water Resources (R1) Department

G.O. (Ms.) No.15

Dated. 28.03.2023

சுபகிருது, பங்குனி 14,

திருவள்ளூர்-ஆண்டு 2054

### Read:-

- 1) G.O. (Ms.) No.326, Public Works Department, Dated 23.11.1993.
- 2) G.O. (Ms.) No.51, Public Works Department, Dated 11.02.2004.
- 3) G.O. (Ms.) No.52, Public Works Department, Dated 02.03.2012.
- 4) G.O. (Ms.) No.142, Public Works Department, Dated 23.07.2014.
- 5) G.O. (Ms.) No.113, Public Works Department, Dated 09.06.2016.
- 6) G.O. (Ms.) No.257, Public Works Department, Dated 1.10.2018.
- 7) G.O. (Ms.) No.161, Public Works Department, Dated 23.10.2019.
- 8) G.O.(Ms.) No.155, Public Works (R1) Department, Dated 28.10.2021.
- 9) From the Chief Engineer, State Ground and Surface Water Resources Data Centre, Letter No. DD (G)/GWRA-2022/2022-10, Dated. 21.11.2022 and 04.01.2023.

### ORDER:

Based on the development of the ground water resources, the Panchayat Union Blocks in Tamil Nadu were categorized as Dark and Grey areas as on January 1992 and January 1997 (Projected development at year 5) in the Government Order first read above. The Blocks with ground water development between 85% to 100% were categorized as "Dark Blocks" and the Blocks with ground water development between 65% to 85% were categorized as "Grey Blocks". The Government directed that no Scheme should be formulated in the Dark Blocks and in the Grey Blocks, Schemes should be formulated in consultation with the Ground Water Wing of the Public Works Department only. The above categorisation was done in accordance with the then prevailing Ground Water Estimation Committee – 1984 (GEC-1984) Norms. Thereafter, the Committee constituted by the Ministry of Water Resources, Government of India, has recommended to adopt the GEC-1997 Norms for estimation of the ground water resources in all the States.

2. In the Government Order second read above, the Government approved the categorization of the Panchayat Union Blocks in Tamil Nadu as Over-Exploited,

Critical, Semi-Critical and Safe Blocks for ground water development as on January, 2003. The Government directed that no Schemes should be formulated in the Over Exploited and Critical Blocks and in the Semi-Critical and Safe Blocks, all the Schemes should be formulated in consultation with the State Ground and Surface Water Resources Data Centre of the Water Resources Organisation in the Public Works Department. It was also ordered therein that the term "Scheme" excludes energisation of agricultural pump sets by the Tamil Nadu Electricity Board. The Government further directed that appropriate rain water harvesting and artificial recharge schemes be carried out in all the categories of Blocks and while carrying out the above Schemes, priority should be given to the Over Exploited and Critical Blocks so as to avoid further deterioration.

3. In the Government Order third read above, the Government approved the categorization of the Panchayat Union Blocks as Over-Exploited, Critical, Semi-Critical and Safe Blocks based on the assessment of the State Ground Water Resources as on March 2009. All the Over Exploited and Critical Blocks were notified as A Category Blocks (where the stage of ground water extraction is 90% and above) and all the Semi Critical and Safe Blocks were notified as B Category Blocks (where the stage of ground water extraction is below 89%). The Government directed that no Schemes should be formulated in Over Exploited and Critical blocks "Notified as A Category Blocks" and in the Semi-Critical and Safe Blocks "Notified as B Category Blocks", all the Schemes should be formulated through the State Ground and Surface Water Resources Data Centre of the Water Resources Department and the Chief Engineer, State Ground and Surface Water Resources Data Centre, would issue "No Objection Certificate" for ground water clearance. The Government further directed to exclude the ground water drawal for domestic purpose by individual household; domestic Infrastructure Project (Housing); Government's Drinking Water Supply Schemes and Non Water based Industries (i.e., the industries which do not require and use water, either as raw material or for other processing). The Chief Engineer, State Ground and Surface Water Resources Data Centre, would permit domestic use of water by these Non Water based Industries by issuing "No Objection Certificate" based on the hydro-geological conditions. The Government further directed that appropriate Rain Water Harvesting and Artificial Recharge Schemes should be carried out in the categories viz, Over exploited, Critical, Semi Critical and Safe Blocks of Tamil Nadu and while carrying out the above Schemes, priority should be given to marginal quality and bad quality areas so as to avoid further deterioration. The Government further directed that all the Schemes and Proposals based on ground water would have to adhere to the Government Orders and Conditions detailed in the Annexure-II to the above mentioned Government Order. This Government Order had been upheld by the Hon'ble Bench of Madras High Court, in its Common Judgement dated 18.09.2013, in WA Nos. 923 to 926 of 2009, WP Nos 23116 of 2006, 23896 to 23900 of 2016, 4711 of 2004 and 12375 of 2008. The Hon'ble High Court had made it clear that even with the repealing of the Tamil Nadu Ground Water (Development and Management) Act, 2003, this G.O. would govern the interest of the parties and the State in the matter of regulating the business of the Writ Appellants.

4. In furtherance of the Orders and Instructions issued in the Government Order third read above, the Regulations for management of ground water and issue of No Objection Certificate / License for extraction of groundwater in the State were

approved in the Government Order fourth read above. In the year 2014, many water based industries filed Writ Petition and batch cases before the Hon'ble Madras High Court praying for directions to quash the G.O. (Ms.) No. 142, Public Works (R2) Department, Dated 23.7.2014. The Hon'ble High Court in its Judgement dated 03.10.2018 in W.P. No. 28535 of 2014 and batch cases, has upheld the G.O (Ms) No. 142, Public Works (R2) Department, dated 23.07.2014.

5. Subsequently, in the Government Order fifth read above, the Dynamic Groundwater resources in the State were estimated taking a Revenue Firka as an unit of assessment by the State Level Technical Co-ordination Committee as on March 2011 and accordingly the Government had approved categorization of the Over-Exploited, Critical, Semi-Critical, Safe and Saline Firkas based on the above assessment. Thereafter, the Government, in the Government Orders sixth, seventh and eighth read above, have approved the categorisation of the Firkas in the State as Over-Exploited, Critical, Semi-Critical, Safe and Saline / Poor Quality Firkas based on the Ground Water Resources Assessment as on March, 2013 and March, 2017 and March, 2020 respectively.

6. In the letters ninth read above, the Chief Engineer, Water Resources Department, State Ground and Surface Water Resources Data Centre, Chennai has stated as follows:-

- a) The Dynamic Groundwater Resources of Tamil Nadu has been estimated periodically by the Chief Engineer, Water Resources Department, State Ground and Surface Water Resources Data Centre, Tharamani, Chennai in coordination with the Regional Director, Central Groundwater Board (CGWB), Government of India, South Eastern Coastal Region, Chennai, based on the Methodology evolved by the Groundwater Resources Estimation Committee in 2015 (GEC-2015).
- b) From the year 2020, the Groundwater Resources Estimation has been carried out through In-GRES (INDIA - Ground Water Resources Estimation System) software developed by IIT, Hyderabad in co-ordination with CGWB and other State Governments.
- c) Revenue Firka is being taken as the unit of assessment and the Firkas are categorized as Over Exploited, Critical, Semi Critical and Safe based on the percentage of the groundwater extraction. The Poor Quality/Saline category was also assessed based on the quality parameter.

Sl. No.	Stage of Groundwater Extraction( as per GEC -2015)	Firka Categorization
1.	Firkas with more than 100% extraction of Groundwater	Over Exploited
2.	Firkas with the extraction of Groundwater between 90 and 100%	Critical
3.	Firkas with the extraction of Groundwater between 70 and 90%	Semi Critical

4.	Firkas with the extraction of Groundwater less than 70%	Safe
5.	Poor quality (or) Saline	Saline

- d) The Report of "National Compilation on Dynamic Ground Water Resources of India 2022" was approved by the Ministry of Jal Shakti, Department of Water Resource, River Development & Ganga Rejuvenation, Government of India and the same was officially released by the Honourable Minister of Jal Shakti, Government of India on 10.11.2022.
- e) The categorization of the Re-Estimation of Dynamic Ground Water Resources of the State as on March - 2022 are as follows:-

Sl. No.	Categorization	No. of Firkas
1.	Over Exploited	360
2.	Critical	78
3.	Semi Critical	231
4.	Safe	463
5.	Saline	34
<b>TOTAL</b>		<b>1166</b>

(The total No of firkas assessed are 1166 Nos.Firkas based on the revenue records of the year 2017)

7. The Chief Engineer, State Ground and Surface Water Resources Data Centre, Water Resources Department has therefore requested the Government for the approval of the Ground Water Resources Assessment as on March, 2022 and notification of the categorization of the Firkas of Tamil Nadu based on the above Resource Assessment.

8. The Government, after careful examination, have decided to approve the categorization of the Revenue Firkas in the State based on the Estimation of the Dynamic Ground Water Resources as on March 2022. Accordingly, the Government approve the categorization of the Revenue Firkas in the State as Over-Exploited, Critical, Semi-Critical, Safe and Saline/Poor Quality as detailed in the Annexure of this Order, based on the Dynamic Ground Water Resources Assessment as on March, 2022 which shall be notified in the Tamil Nadu Government Gazette.

9. The Government also direct that all the Over Exploited and Critical Firkas as on March - 2022 Resource Assessment to be declared as Notified Firka - A Category (Stage of Groundwater extraction is 90% and above) and all the Semi critical and Safe Firkas to be declared as Notified Firka - B Category (Stage of Groundwater extraction is below 90%).

10. The Chief Engineer, State Ground and Surface Water Resources Data Centre, Water Resources Department is directed that appropriate rain water

harvesting and Artificial recharge schemes shall be carried out in the categories viz, Over exploited, Critical, Semi Critical, Safe and saline/Poor quality Firkas of Tamil Nadu. While carrying out the above Schemes, priority shall be given to marginal quality and bad quality areas so as to avoid further deterioration.

11. Other technical circulars issued by the Chief Engineer, State Ground and Surface Water Resources Data Centre, Water Resources Department, Chennai in this regard are to be adhered to, as and when issued.
