Chapter - 1

INTRODUCTION

1.1 Government of Tamil Nadu is committed to provide world class health care to the citizens of the State by making available quality health care facilities in Urban and Rural areas of the State.

1.2 Tamil Nadu has been pioneer in various health care initiatives which have been adopted by various States. The consistent effort taken by the State Government in various health care initiatives has resulted in high performance in vital indicators. The current Infant Mortality Rate of the State is 19 (Sample Registration System, 2016), which is well below the 12th plan national target of 30 per 1000 live births. The State ranks as the second lowest among the major States in the country for this indicator. Against the National target of 100 per lakh live births for the Maternal Mortality Ratio, the State had already achieved a Maternal Mortality Ratio of 79 as per Sample Registration System 2011-2013. Now, this has gone down further to 62 per lakh live births. The State has also achieved replacement level and the current Total Fertility Rate is 1.6 which is one of the lowest in the country. The performance of Tamil Nadu on the health front has been appreciated by the Common Review Mission of the Government of India and other various Independent Review Missions.

1.3 The Health and Family Welfare Department has more than a lakh of employees who are working in various Directorates, as detailed below:

In Tamil Nadu at State level State TB Cell (STC) and State TB Training &

Demonstration centre (STDC) is functioning with State TB Officer & Director for State TB Training & Demonstration Centre. At District level, District TB Officers (DTO) are posted in each district. In the districts 461 TB units are functioning after decentralization at Block level. One TB Unit (TU) is formed for every 1.5 - 2.5 lakh population. Each TB Unit is manned by one of the Block Medical Officers in the Unit, who is designated as Medical Officer TB Control (MOTC) and assisted by one Senior Treatment Supervisor (STS) at block level. One Senior TB Laboratory Supervisor (STLS) is deployed for each five lakh population and one TB Health Visitor (TBHV) for 1 lakh Urban Population.

- Designated Microscopy Centres (DMCs) and Speciality Labs:** In Tamil Nadu, there are 829 Designated Microscopy Centres. One Designated Microscopy Centre (DMC) has been formed for every 1 lakh population. Each Microscopy Centre has one Laboratory Technician (LT) from General Health System and has been provided with Binocular Microscope. Presently 69 numbers of DMCs have been provided with fluorescent microscopes which has 10 to 20% higher double sensitivity in detecting MTB than ordinary microscope. Solid, liquid culture & Drug Sensitivity Test (DST) is done at the Intermediate Reference Laboratory, Chetpet, Chennai. Lab for Drug Resistant TB is functioning and assisted by National Reference Laboratory (NRL) at National Institute for Research in Tuberculosis (NIRT), Chennai. Solid culture is done at CMC Vellore under Private Public Mix (PPM) scheme.

3.9 District Mental Health Programme: The District Mental Health Programme is a Community based Programme successfully implemented in the State. The aims of the District Mental Health Programme are as follows:

- To create awareness regarding mental health in the community
- To integrate and implement mental health services through all the wings of the Health Department
- To facilitate the early detection and treatment of the patient within the community itself
- To reduce the stigma attached towards mental illness through change in attitude and public education
- To treat the rehabilitated mental patients discharged from mental hospitals within the community

The District Mental Health Programme was first implemented in Tiruchirapalli district during the year 1997. Now, this programme has been expanded to 25 districts as follows:

3.10 TAMIL NADU STATE ILLNESS ASSISTANCE SOCIETY: Tamil Nadu State Illness Assistance Society, Chennai was established in the year 1998 with an outlay of Rs.15 crore and it is a shared scheme at the ratio of 2:1 by the State Government and Government of India respectively. The objective of the scheme is to render financial assistance from Rs.5,000/- to Rs.25,000/- according to the nature of surgery to the Below Poverty Line people in Tamil Nadu, with an annual Income of Rs.72,000/- and below, for 12 types of life saving surgeries / treatment at the accredited Private Hospitals. There are two patterns of the schemes, under this society.

1. Revolving fund fixed to the 14 Government Medical College Hospitals for performance of specified surgeries by paying cost of consumables.
2. Revolving fund fixed to the 32 District Collectors for disbursement of financial assistance of Rs.25,000/- to the individuals / at accredited private hospitals, after the performance of specified surgeries/ treatment and after the issuance of order in each case by the District Collectors.
3. After the introduction of Hon'ble Chief Minister Comprehensive Health Insurance Scheme, only already operated cases are being offered financial assistance under Illness Society for 12 types of life saving surgeries.

A sum of Rs.2.00 crore has been allotted under this scheme during this financial year.

Chapter - 4

PUBLIC HEALTH AND PREVENTIVE MEDICINE

4.1. The Department of Public Health and Preventive Medicine was established in the year 1923 in Tamil Nadu. Since inception, this Department has been engaged in protecting and promoting the health of the people in the State through immunization, health education, application of hygiene and sanitary measures, monitoring quality of drinking water and environmental hazards, thereby reducing the burden of morbidity, mortality and disability in the State. The main objectives of the department include prevention and control of communicable diseases and provision of community based Maternity and Child Health Services in rural and urban areas through universal primary health care.

Infant Mortality Rate (IMR)

4.2 The Government of Tamil Nadu is committed and dedicated to reduce the Infant Mortality Rate of the State to below 13 (Number of infant deaths per year for every 1000 live births) during the 12th Five Year Plan period (2012-2017).

Maternal Mortality Ratio (MMR)

4.3 Tamil Nadu ranks third lowest in MMR among the major Indian States. In 2015-16, Tamil Nadu reported 637 maternal deaths (an MMR of 62 per 1,00,000 live births). The Government of Tamil Nadu is committed to reduce the Maternal Mortality Ratio of the State to below 44 during the 12th Five Year Plan period (2012-2017).

Civil Registration System

4.4 Tamil Nadu has a long tradition of registration of births and deaths. Prior to the introduction of Registration of Birth and Death Act, 1969 by the Government of India, registration of births and deaths in Tamil Nadu was carried out under the provisions of Madras Panchayats Act, 1899 in Rural Areas, the Madras District Municipalities Act, 1920 in the Municipalities and selected Town Panchayats and the Madras City Municipal Act, 1919 in Chennai Corporation. There are 16,142 Registration Units in Tamil Nadu distributed across the 32 Revenue Districts including Chennai Urban District. With the introduction and implementation of Tamil Nadu Registration of Birth and Death Rules, 2000, with effect from 01.01.2000, in accordance with the provisions of Sec.30 of the Registration of Births and Deaths Act, 1969, registration of births and deaths has been made compulsory within 21 days of occurrence at the place of occurrence.

The Birth and Death Registration system has been computerized throughout Tamil Nadu, both in the rural and urban areas of the State. Tamil Nadu has achieved 100% in birth and death registration during 2015.

Establishment of Urban Primary Health Centres

4.11 The Government of India has launched National Urban Health Mission (NUHM) in May, 2013 as a Sub-Mission under the NHM to effectively address health concerns of the Urban poor especially in slums and vulnerable areas. An Urban PHC is established for every 50,000 population in towns having more than 50,000 population and in any town which has below 50,000 population under NRHM. Under NUHM 280 Urban PHCs are established which includes 37 New Urban PHCs and 243 existing Urban PHCs/Urban Health posts which are already available with Directorate of Public Health and Urban Local Bodies were strengthened. Under NRHM 56 Urban PHCs are functioning in towns, which have below 50,000 population under the control of Director of Public Health and Preventive Medicine. At present 336 Urban PHCs are functioning under the control of the DPH&PM to improve the availability of Primary Health centre services to the Urban poor which is furnished below:

Menstrual Hygiene Programme

4.12 This programme was launched by the **Hon'ble Chief Minister** on 27.03.2012. Under this scheme, 18 packs of sanitary napkins (six pads per pack) in a year at the rate of three packs for two months are provided to each adolescent girl (10–19 years), both school going and non school going, in rural areas. Sanitary Napkins are also given to post natal mothers who deliver in Government institutions at the rate of seven packs each (six pads per pack). Besides adolescent girls and mothers who deliver in Government institutions, sanitary napkins are being given to each woman prison inmate and to female in-patients in the Institute of Mental Health, Chennai at the rate of 18 packs (six pads per pack) in a year. Details of beneficiaries under the scheme during the year 2016-17 are furnished below:

Sl. No	Category	Annual Requirement of Sanitary Napkin Packs	Total Quantity distributed (Packs)	Type of Sanitary Napkin
1	Adolescent girls in rural areas (10-19 yrs) who have attained puberty	32,79,028 x 18	5,90,22,504	Beltless Type

Chapter - 5

FAMILY WELFARE PROGRAMME

5.1 The National Family Welfare Programme is implemented in Tamil Nadu from 1956 onwards. Initially, the Department of Family Welfare was functioning only as a wing of the Medical and Public health Directorates. A separate Directorate of Family Welfare was formed during 1983. Subsequently, the Family welfare Programme was implemented as a People's programme by involving all the other departments. The main objective of the Family Welfare Programme is to stabilize the population growth as well as to improve the maternal and child health status there by reducing the vital indicators such as the CBR, IMR and MMR. Today Tamil Nadu is considered as a model State of all other States in the country in the implementation of the Family Welfare programme. As the State has made commendable progress in reducing the birth rate, the focus has shifted from the 'Target Based Approach' to 'Community Need Based Approach' where the importance is given to meet the unmet need for family planning services and improving maternal and child health. The major factor behind the success of the programme in the State has been the strong social and political commitment coupled with a systematic administrative backup. Government of India has given award to Tamil Nadu for exemplary contribution in Post partum sterilization in the country during the year 2016.

5.2 Demographic Scenario: The Demographic Scenario of Tamil Nadu compared with India is as follows:

TAMIL NADU HEALTH SYSTEMS PROJECT

Chief Minister's Comprehensive Health Insurance Scheme

10.1 In order to provide quality health care services to the families particularly below the poverty line, by extending health insurance coverage to them at the rate of Rupees one lakh per year, the Government launched the flagship scheme of Chief Minister's Comprehensive Health Insurance Scheme at the annual total cost of around Rs.750 crore every year since 2012 and now the scheme is implemented at the annual cost of Rs.928 crore for 2016-17. So far, 1.58 crore smart cards have been distributed to the families under poverty line. Under the scheme, 592 Private hospitals and 159 Government Hospitals have been empanelled. From the inception of the scheme in 2012, till 10.01.2017, 17.30 lakh persons have been benefitted under the scheme with the approved treatment value of Rs.3,398.66 crore. Out of them 6.93 lakh persons were treated in Government Hospitals with the approved treatment value of Rs.1,161.61 crore.

The Chief Minister's Comprehensive Health Insurance Scheme is continued from 11.01.2017. For specialized procedures, insurance coverage has been raised from Rs.1.50 lakh to Rs.2.00 lakh. This scheme covers 1027 procedures, which include 154 specialized procedures, 38 important diagnostics procedures, 154 follow-up procedures and 8 High End Procedures. Premium of Rs.808 crore (75% of total annual premium inclusive of service tax) at the rate of Rs.699 per annum per family has been paid for the first policy year. Out of remaining 25% of premium, 20% will be paid after successful completion of six months of the scheme and the balance 5% will be paid before end of the first year. From 2nd, 3rd and 4th years, 95% of the annual premium will be paid at the commencement of that year itself and balance 5% will be paid at the end of the year on satisfactory implementation of the scheme. Therefore, Government have sanctioned Rs.1,346.46 crore in the Budget Estimate for 2017 -2018.

After renewal of the scheme on 11.01.2017, 57,393 persons have benefitted upto 31.03.2017 under the scheme with an insurance coverage for an amount of Rs.101.56 crore. Out of this, 24,896 beneficiaries have been treated in Government Hospitals for Insurance coverage for Rs.36.14 crore.

Totally under Chief Minister's Comprehensive Health Insurance Scheme 17.87 lakh persons have been benefitted for insurance coverage of Rs.3500 crore.
