PREFACE

Building construction is an ancient human activity. It was very essential for the functional need of a controlled environment to effect the biological balance of climate. Only by constructing buildings, the human beings were able to adapt themselves to the climatology changes and gain as a global species.

Construction of Building is an art involving high determination and dedication. Under the visionary leadership and able guidance of **the Hon'ble Chief Minister**, the Public Works Department delivers buildings construction works with great care ensuring that they are safe, serviceable and for the benefit of the public.

Public Works Department is one of the ageold service departments of the Government which creates assets to the State. This Department is serving for the past 158 years fulfilling the needs of the State particularly, in the construction and maintenance of all Government Buildings with high devotion and dedication apart from rendering technical expertise whenever needed.

The Buildings Organisation adapts with the advent of the latest scientific and modern technologies and as per guidelines and the procedures specified in the Bureau of Indian Standard Codes in order to ensure that the buildings are structurally safe.

The Buildings Organisation is functioning efficiently and constructing Public Buildings based on need basis to various Government Departments, autonomous bodies, etc., adapting well codified practices, latest technology and e-governance.

PUBLIC WORKS DEPARTMENT

BUILDINGS

1.0. HISTORY OF PUBLIC WORKS DEPARTMENT

Tamil Nadu Public Works department is one of the oldest Engineering Departments in India.

Prior to the establishment of Public Works Department, the East India Company formed Maramathu Department in 1849 to improve the irrigation and agriculture.

In 1858 after India was brought under the direct rule of British Empire, Public Works Department was formed in the State of Madras. This department was originally entrusted with wider scope of works including Irrigation, Building construction, Formation of roads, Drinking water, Drainage works, etc.

Later from the parent department of Public Works Department, the new departments viz. Energy Department, Highways and Minor Ports Department, Tamil Nadu Electricity Board, Tamil Nadu Housing Board, Tamil Nadu Slum Clearance Board, Tamil Nadu Water Supply and Drainage Board and Tamil Nadu Police Housing Corporation were formed and are functioning with specific scope of works.

2.0. THE COMMITMENT OF PUBLIC WORKS DEPARTMENT

This department is committed to Plan, design, construct, maintain and monitor the stability of the public buildings.

The Planning and Design activities of PWD are centralized to achieve uniformity and two wings are functioning for this purpose at Chennai with Statewide jurisdiction. The "Architectural

wing” evolves Architectural Plans and the “Planning and Design Circle” prepares Structural designs and drawings.

The Construction and maintenance activities for various user departments are performed by Territorial Circles and Divisions of PWD located all over the State.

Public Works Department offers authenticated expert opinion regarding the Buildings as and when requested by other Government departments.

Other activities of Public Works Department

- Construction of Manimandapams, Memorials, Monuments, etc.
- Renovation and restoration of heritage buildings to preserve their Architectural, Aesthetic, Historic and archaeological values.

- Maintenance of Secretariat, Raj Bhavan at Chennai and Udhagamandalam, Hon'ble Judges, Ministers and other VVIP's Bungalows, Inspection Bungalows, Circuit Houses and other Government Buildings.

4.0. ARCHITECTURAL WING

The Architectural wing evolves preliminary drawings, detailed plans, elevation and cross sections for construction of new buildings.

Suitable Plan and Designs are prepared considering the utility aspect of the buildings such as office, educational, medical and residential purposes. This wing evolves layout plans for large complexes, besides evolving plans for Memorials, Manimandapams, Parks, etc.

This wing also evolves type Design for Block sanctioned Buildings such as Primary Health Centres,

Health Sub Centres, Class rooms for School Buildings, Hostel Buildings for Backward Classes, Most Backward Classes and Minority Welfare Men and Woman students Hostel Building, etc.

The head of the user department formally requests the Chief Architect at Chennai for preparation of plans for their proposed new buildings. Along with the request, the details on the background, scope, area requirements, space availability, user population data are obtained.

After several meetings and consultations among field engineers and the officials from user departments, conclusions are drawn and plans are prepared by the Architects for the proposed new buildings.

All the drawings prepared by the PWD Architects adhere to the standard codes published by the

Bureau of Indian Standards, International Special and space standards for Barrier free built environment for the differently abled.

Further, the plans shall incorporate rules, regulations and amendments issued by Central and State Governments with respect to building construction.

The drawings are prepared using digital software.

At present 40 Architects working in this wing are registered under the Council of Architecture, New Delhi.

5.0. PLANNING AND DESIGN CIRCLE

The Planning and Design Circle was formed for preparation of best structural designs complying with the Indian standard codes and incorporating modern technology in the field of Building construction

and various circulars issued and based on the practical knowledge acquired by this department over the period of many decades.

Further, a Division known as Tamilaga Arasu Building Research Station (TABRS) is functioning under the control of Planning and Design Circle in order to give importance to technical excellence, research and quality of construction materials.

At present, 25 structural design engineers are working in the Planning and Design Circle and the Division of TABRS.

The buildings designed in this circle shall fulfill the following objectives :-

- Optimize utilization during the intended life of the building.
- During construction and usage the building shall withstand the

weight loaded over the building.

- Should be durable.
- Should adequately resist to the effects of misuse and fire.
- Should withstand natural calamities such as earthquakes.
- Analysis & Design of RCC structures including multi-storeyed building and steel roof structures using computerised structural Softwares.
- Checking the detailed designs and drawings for codal compliance.

Under the visionary leadership and able guidance of **the Hon'ble Chief Minister**, the Public Works Department evolved designs for the following important structures

with its specialized expertise in this field of structural designs :-

- Construction of Bharat Ratna MGR Memorial at Marina beach, Chennai.
- Construction of Diamond Jubilee Commemorative Arch for the Tamil Nadu Legislative Assembly at Chennai.
