Press Release

In all party meetings the political parties had pleaded with the Election Commission of India to take stringent measures to curb misuse of money power in election. Election Commission of India has taken a number of measures pursuant thereto. However, in some constituencies incidents of distribution of cash or gifts to lure voters have been detected. Election Commission of India has viewed it with serious concern as not conducive to conduct of free and fair elections. Election Commission of India is watching the situation closely and in case the incidents are repeated it shall be constrained to take stern measure as may become necessary.
