

செய்தி வெளியீடு

தமிழ்நாட்டிற்கான கொரோனா தடுப்பூசி ஒதுக்கீடு போதுமானதாக இல்லாததால், மாநிலம் முழுவதும் நாளுக்கு நாள் அதிகரித்து வரும் தடுப்பூசிக்கான தேவையைப் பூர்த்தி செய்வது மிகவும் கடினமாக உள்ளது எனக் குறிப்பிட்டு, தடுப்பூசி ஒதுக்கீட்டில் உள்ள ஏற்றத்தாழ்வுகளை சரிசெய்யவும், தமிழ்நாட்டிற்கு மக்கள் தொகை அடிப்படையில் சரியான அளவில் தடுப்பூசிகள் கிடைத்திடவும், ஒரு கோடி தடுப்பூசிகளை சிறப்பு ஒதுக்கீடாக அளித்திடக் கோரி, மாண்புமிகு இந்தியப் பிரதமர் திரு. நரேந்திர மோடி அவர்களுக்கு மாண்புமிகு தமிழ்நாடு முதலமைச்சர் திரு. மு.க. ஸ்டாலின் அவர்கள் இன்று (13-7-2021) கடிதம் எழுதியுள்ளார்.

PRESS RELEASE

Text of the D.O. Letter No.1163/CMO/2021, Dated 13-7-2021 of Thiru M.K. Stalin, Hon'ble Chief Minister of Tamil Nadu addressed to the Hon'ble Prime Minister of India, requesting to seek the intervention to correct the imbalance in the vaccine allocation for Tamil nadu and make a special allocation of 1 crore vaccine doses:

I invite your kind attention to my earlier letter dated 27-05-2021, wherein I had requested your immediate intervention in making a special allocation of Covid-19 vaccines to Tamil Nadu to correct the disproportionately low allocation made to the State, in terms of doses made available per thousand eligible population.

Till 8-7-2021, the State has received only 29,18,110 vaccines from Government of India, for the people in 18-44 years category and 1,30,08,440 vaccines for the above 45 years category. As the allocation of vaccines is very inadequate, we are finding it extremely difficult to meet the huge demand for vaccination throughout the State. The success of my Government's efforts to eliminate vaccine hesitancy and make the vaccination drive a mass movement now squarely rests on the doses made available to us.

In this connection, I would like to point out that the Ministry of Health and Family Welfare, Government of India in its affidavit filed in the Supreme Court of India in suo moto W.P. (Civil) No.3 of 2021,

have specifically submitted that the States have been allocated the available vaccine quantity in proportion to the population between 18-44 years of age of the respective State so as to ensure equitable distribution of vaccine.

However, Tamil Nadu has not received vaccines proportionate to its population size resulting in the current acute shortage of vaccines. The number of vaccine doses provided to our State is only 302 per thousand eligible population. This is very low when compared to the vaccine doses made available to comparable States like Gujarat, Karnataka and Rajasthan, which are at 533, 493 and 446 respectively.

Hence, I once again, request your immediate personal intervention to correct the above imbalance in the vaccine allocation for Tamil Nadu and make a special allocation of 1 crore vaccine doses, so that we are able to vaccinate the targeted population in the shortest possible time.
