

P.R.No: 331

Date: 16.04.2010

Press Release

Taking into account the representations received for inclusion of names in the e.roll and for issue of EPICs, the Election Commission while directing the establishment of the system of Booth Level Officers (BLOs) had mandated that they should carry out periodical field-verification to ensure the up-to-date maintenance of e.rolls and considering the fact that during the annual exercise of (Summary) Revision of electoral rolls, not all eligible persons are able to apply for inclusion in the e.rolls, 100% Field Verification was taken up by the BLOs to identify by house-to-house visit names of all eligible persons to be included, surplus names (dead/shifted) to be deleted and corrections to be carried out including setting right the mismatch of images in the e.rolls.

The Field -Verification (FV) has been completed resulting in identification of 47 lakh names for inclusion in the e.rolls, 16.5 lakh names for deletion of shifted electors, 8 lakh cases of correction of entries to be made and 2.35 lakh images to be corrected. The work of data entry has been completed for all inclusion cases. The relevant Forms such as Form 6/8/8A will be taken by the BLOs for obtaining documentary evidence for age and residence and photos, wherever required. For the deletion cases, notice for deletion is being served before passing of orders for deletion.
