

**Press Release**

Tamil Nadu e-Governance Agency (TNeGA) is implementing e-District Project through which online services of various departments has been provided to the citizens. During May to August, due to declaration of school results, there is a huge rush in CSC centres to apply for various services particularly Nativity, Income and Community Certificates. Due to large number of applications, slowness in the response of the server was observed due to which delivery of services were interrupted at times. While the normal transaction during lean period is around 32,000-40,000 per day, the application is able to process around 92805 transactions on 13-June-2018, which is more than twice the normal day count. TNeGA is monitoring the services round the clock in consultation with NIC and technical teams to provide uninterrupted services. Till date this year total transactions are 41,39,096.
