

Press Release

The poll for 51. Vandavasi A.C and 225 Tiruchendur A.C was by and large peaceful. There were few complaints pertaining to Tiruchendur A.C. The complaints received pertaining to Vandavasi A.C on phone were referred to the Collector or the IG / DIG/SP for immediate action. In some cases the Booth Level Officers or / and the Zonal Officers were contacted using the Communication Plan which had been prepared earlier to ascertain the veracity of the allegations and take remedial action in cases of irregularities. The SMS based system of monitoring of poll wherein the percentage of voters' turn out every one hour till 3 pm and every half an hour after 3 pm could be known, proved to be very useful. The video coverage of the proceedings in the polling stations and the capture of images in the polling stations and their online viewing in the Central Server in the CEO's office helped to reduce chances of bogus voting.

The poll percentage for **51 Vandavasi AC** is likely to be nearly **82%** & that for **225 Tiruchendur AC 78 %**
