PRESS RELEASE

Date: 23.06.2011.

**Sub:** Science City, Chennai -25 – Seminar on "Science & Technology" for the Parents and Teachers of Learning Disability children – Reg.

As you are aware Science City is an autonomous organization under the Department of Higher Education, Government of Tamilnadu for the promotion and popularization of Science and Technology.

There are many children who look normal and behave normally but academically are not as good as their peers. They suffer from a lesser-known condition called Learning Disability, which refers to a group of disorders in listening, speaking, reading, writing, and mathematics. Learning Disability was an invisible problem in children and parents needed to be aware of instead of punishing the child for their poor performance. School alone could not do anything to improve their performance of a child. The parents should join the hands with their teachers and accept them as were, give the support and love.

In this regard, science city has proposed to organize a one-day seminar for parents and teachers of learning disability children on 30<sup>th</sup> June, 2011 at Science City Auditorium, Gandhi Mandapam Road, Chennai -25 free of cost. The main theme of this seminar is to give scientific knowledge and awareness among parents about prevention of learning disability of children, types of learning disability and how to identify the learning disability children, how to cope with stress, and how to educate them without stress and fear, etc. The lectures will be delivered by eminent personalities in their respective field. This seminar will be more beneficial to parents and teachers to interact with eminent personalities to take suitable remedial for their children.

Interested Parents & teachers need to contact us in well advance at the Science City Office and registrar their name. Contact Phone No: 044-24454054 / 24454034 / 9841318440.

I request you to kindly issue necessary directions to the officials to give wide publicity for the above mentioned programme for the benefit of the student community.

Thanking you,

Yours sincerely
