

P. R. No :- 617

Date: 23.07.2010

PRESS RELEASE

The LPG Distributors / LPG suppliers have represented to the Transport Commissioner on 16.07.2010 that the number of (LPG) filling stations in the Chennai City is very meager and the trucks which carry LPG-Gas are not permitted to enter into the city during peak hours in day time. Therefore, there is delay in bringing LPG-Gas for the Auto LPG Dispensing Stations located in the Chennai City even though the dispatches are made from the factories well in time. So the Transport Commissioner called for meeting of the LPG distributors and suppliers to sort out the problems binding a workable solution.. It was decided to request the Police Officials to allow the LPG trucks within the city limit on round the clock basis. After due consideration to various representation.
